DIARY NOTES

25X1A

DD/A [redacted]

6 July 1954

****

25X1A9a
25X1A2d1 1. Met with [redacted] and Jim Garrison to discuss the Administrative Plan concerning property to be liquidated in connection with Project PBSUCCESS. In general, it was agreed that all items which could be recovered would be stored at [redacted] It was also agreed that we would not consider making Project [redacted] a fifth major base at this time. Jim was invited to submit
25X1A2d1 a paper on this subject (if he felt that it was desirable) at an early date.

25X1A9a 2. Dr. Tietjen showed me a copy of a letter which [redacted] had written to the Bureau of Employees Compensation wherein he criticized the Agency very severely and asked that his claim be dropped. He strongly indicated that he desired to make no claim and that it was entirely the Agency's idea that he do so. He was also very critical of the Agency's handling of his case. I can only conclude
25X1A9a that this letter is further evidence of [redacted] mental condition since I have personal knowledge that every effort was made not only to help him but, also, to find some way to pay as many of his medical expenses as possible.

25X1A9a 3. Agreed informally with [redacted] that Howard Preston might become the Administrative Officer for the WH Division, but, at the same time, asked him to submit the recommendation to the DD/A Career Service Board.

25X1A9a 4. Returned the papers on [redacted] who is to obtain 25X1A9a
Frank Wisner's signature on a statement to the effect that [redacted] delayed departure for PBSUCCESS was due to peculiar operational and security conditions surrounding that particular Project and not common to the Government.
